"OUR TOWN"

ATTICA, INDIANA

OUR TOWN

OUR TOWN

Attica was laid out in 1825, the first plat being filed by Dan Stump. The original plat extended from the corner of Brady and Washington streets west on the latter to the river front; thence north to Perry Street; thence east to the alley running west of the Revere House; thence south on a direct line to the place of beginning.

It was primarily a river front town, but shortly after 1825 it enjoyed a boom in manufacturing. The Wabash and Erie Canal was constructed to Attica and had much to do with Attica's rapid growth. The Wabash Railroad constructed through Attica in 1857 brought Attica out of a standstill which had begun ten years earlier following the boom.

Attica was first incorporated as a town at the June session of the Board of Commissioners, 1849; and on June 25, the qualified voters assembled and elected the first Board of Trustees. The city obtained its charter in 1866 and on the third Monday in June of that year the first election was held.

The industries of OUR TOWN have grown and spread throughout the years and today it is largely an industrial city.

As OUR TOWN has advanced and will continue to advance, so the youth of Attica High will advance, holding not only cherished memories of their wonderful school and activities, but also looking forward with great expectation and high hopes for their part in OUR TOWN.

DEDICATION

We, the Crimson Staff of 1950, take great pleasure in dedicating this Crimson to Mrs. McKinney, who has devoted much of her time in developing an efficient commercial department and making this yearbook a success.

ADMINISTRATION

The Board of Education has effectively carried out another successful school year. Through their wisdom and good judgment they have provided many facilities for our education, culture, and recreation. We sincerely thank them for the untiring effort they have put forth for our educational benefit.

Superintendent G. E. Ebbertt, a capable and energetic personality, has been more than superintendent to the students of A. H. S. He has been our friend to whom we could look for advice and help, whether on problems regarding ourselves or some school activity.

Principal Kenneth C. Shafer has shown his devotion to youth and interest in activity in his success in leading us through another year.

OUR TOWN is indeed fortunate in having an Administration so well qualified for the position which it holds.

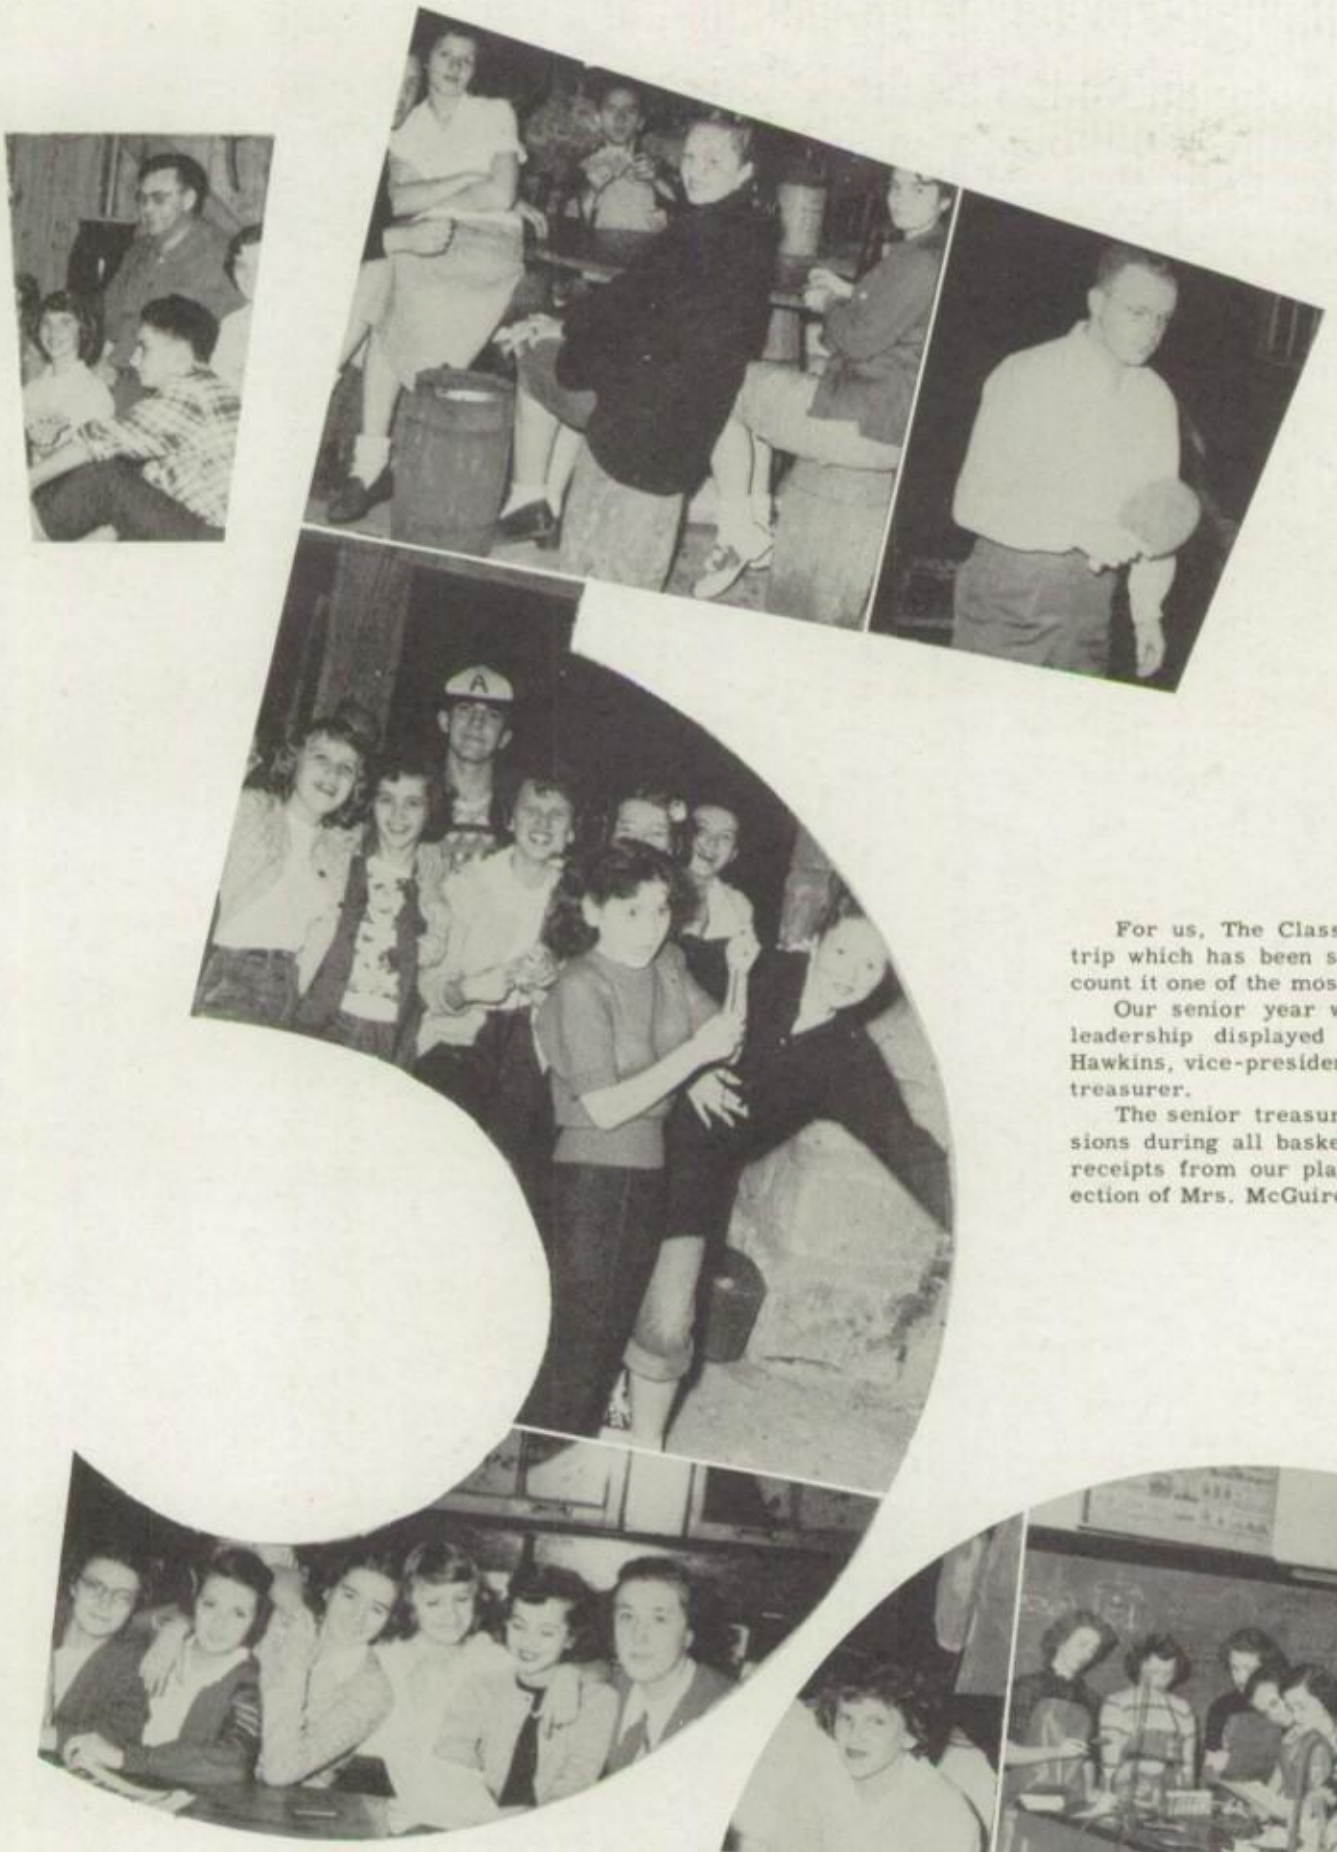
In loving memory of

WARREN J. RICHARDSON

our friend and senior classmate
who tragically left us on September 19, 1949.

The good one does in a lifetime
is not measured by the number of years
that he spends on this earth.

This is true of the life of Warren whose quiet, reserved way and kindly attitude toward his fellow men will serve as an influence for good always.



For us, The Class of 1950, it is "Journey's End," a twelve year trip which has been so full of work and enjoyable events that we can count it one of the most memorable events of our lives.

Our senior year was especially outstanding because of the great leadership displayed by our officers: Bob Drake, president; Don Hawkins, vice-president; Keith Collier, secretary; and Gary Purviance, treasurer.

The senior treasury was enlarged upon by our working at concessions during all basketball games, individual and tourney, and by the receipts from our play, "The Campbells are Coming," under the direction of Mrs. McGuire.

May 22, 1950, saw us in Chicago on our trip during which we spent some of our money. However, our thoughts were not only on our own pleasure for we presented the school with an up-to-the-minute automatic score board.

Mrs. McGuire and Mr. Shafer were sponsors for the class of 1950 which chose the following for its motto, colors, and flower.

Motto: Give to the world the Best You Have and the Best will Come Back to You.

GRADE SCHOOL

The formal education of the children of Our Town begins in the Attica Grade School. The Grade School is capably run by Mr. Harvey C. Norman as Principal with a staff of sixteen teachers completing the faculty. The elementary school has approximately five hundred students. It is divided into two parts; the first six grades making up the first part, and the seventh and eighth grades making up the Junior High School.

The fifth and sixth grades as well as the Junior High School have basketball teams which compete with other schools in the vicinity of Our Town. Students of the Junior High take part in many of the High School's activities such as Band and Patrol.

We are proud that Our Town has such a fine grade school in which proper training for students may begin.

The Hop was first held in 1944 and has become one of the highlights of Attica High's year. A king and queen are elected by the students for the Hop. Fred Thayer and Nancy Skinner were crowned king and queen, respectively, for the 1949 dance.

STUDENT COUNCIL

The Student Council is made up of two elected senators from each class, and president of each school organization, who acts as a representative for his respective group. Its purpose is to promote student leadership, to encourage and initiate student view points, to take charge of intra-mural sports, and to organize a suitable convocation program.

Arrangements were made during the year by this organization for a Homecoming football game, with a huge bonfire rally the night before, and a parade of floats and the crowning of the Homecoming queen the evening of the game. Marilyn Kirby, who was selected by the team to be queen, reigned over the dance which concluded the Homecoming festivities.

For the first time, this year the student Council presented a student talent show in which many of the hidden talents of the students were displayed.

The officers for the 1949-50 school year were: Irvin E. Poston, president; Winifred Miller, vice-president; Charlotte Nelson, secretary; JoAnne Wallace, treasurer and chairman of finance committee; Dan Bartell, chairman of intra-mural committee; and Gloria Hopkins of program committee.

BAND

The Senior Band of "50" has had a very successful year. To Mr. Glover, our director, we wish to express our appreciation and gratitude for his excellent help and guidance. Our band consists of 54 members, including majorettes.

Again, this year, we elected the following officers: Bob Drake, president; Carol Levor, vice-president; Beverly Fink, secretary; Paul Sullivan, monitor. We have also formed a Pep Band.

The first semester we traveled to Danville with 13 other bands to escort Santa Claus. We went to Terre Haute to see and hear the Marine Band. There we won a Travel Trophy. We played and marched at all our home football games, and played and marched for several home basketball games.

The second semester, solos, trios, and ensembles went to Greencastle for the Solo and Ensemble Contest. There were several "firsts" taken. The First Division winners then went to the State Contest at Terre Haute. In April we went to the District Contest at Greencastle. The band's final appearance before the vacation was at Commencement.

CHORUS

The Chorus of A. H. S. had quite a successful year. Our officers were Marilyn Kirby, Bernard Martin, and Jerry Clements.

Our first event was the State contest in Indianapolis. We sang our annual Christmas Vespers on December 20, with a candlelight processional. Several students took part in the Solo and Ensemble Contest in February. Our District Choral Festival was held in April with Russell Parton as guest conductor. After winning a second in State Contest last year, the Chorus plans to enter again this year. Our operetta in April climaxed a most successful year.

The Board includes two girls from each of the high school grades, one from the faculty, and one from the city of Attica. All of last year's members were retained and new members were chosen to replace last year's graduates.

These girls are the "big sisters" of the other girls in school and their problems concern the cleanliness of the school and answering the needs of the others.

This year's officers are Rose Karlson, president; Mary Lighty, vice-president; Ida May Wall, secretary; Margaret Helms, treasurer. The faculty sponsor is Mrs. Hewitt.

Donna Wallace was chosen to replace Mary Lighty as vice-president for the second semester.

THE OFFICE FORCE

Each year capable people are chosen to work in the offices of the high school and the grade school. These people must be able to type and being able to take dictation is an asset that is not overlooked in making selections. Other duties that they have are answering the telephone, taking up the attendance slips, and doing general office work.

Some of these workers have definite jobs such as filing. The work gives them some idea of what lies ahead of them if they plan to do office work after graduation. They are under the direct supervision of Mr. Shafer and Mr. Norman.

The organization of this club is due to the ideals and efforts of Mr. Daugherty, school science and higher mathematics teacher, who is a member of the Indiana Senior Academy of Science.

After organization, the club revised and adopted a constitution suggested by the Science Clubs of America. The club then applied for and received membership in the Indiana Junior Academy of Science.

The following officers were elected for the year of 1949-50; Gary Purviance, president; Betty Smith, vice-president; Dan Bartell, secretary-treasurer.

Football

Attica's Red Ramblers football squad, under their new coach, Glen R. Stevenson, proved to be very strong with two regulars back from last year's Wabash Valley Conference Champs. The Ramblers won 6 games, lost to Morocco and Cayuga, and tied Perrysville for a total of 9 games.

Basketball

With three regulars back from last year's team, the Attica Red Ramblers had a very fast and exciting season, winning 13 of 18 scheduled games. The Ramblers won the Wabash Valley Prelims for the third straight year but lost to Clinton in the quarterfinals at Terre Haute. The Ramblers also tied for Conference honors with West Lafayette again this year, both teams winning 5 of 6 conference games.

Cross Country

Attica's Cross country Team was very successful for the second year. This season the team participated in 6 meets, 3 of which were home meets, 2 away from home, and the sectional. Of 6 of these meets Attica won 4, losing to Frankfort, and placed 7th in the cross country sectional. We hope that the cross country squad will have a very successful team and season for the coming fall term.

Track

The track squad ended a very splendid season under the coaching of Don Snyder. The squad participated in 9 meets. The Rambler track squad won the Kentland Track and Field meet, won the B division of the Attica Relays, and placed second in the track conference. The Ramblers won all their two-way meets, placed second in a three-way meet with Jeff of Lafayette and participated in the Frankfort and Delphi Relays. The Rambler track squad participated in the Paris Relays for the first time last spring and hope to go again.

CLASS of 1950 PROPHECY

I, Professor Julius Humphrey Thwendlethwigger, Ph. D., M. D., and D. D. T., have just completed a long series of experiments over a period of many gruelling years resulting in the discovery of the most astounding boon to mankind since the invention of the toothpick! The FUTURITY PILL!!

As yet, the Futurity Pill is in an undeveloped state and not yet ready to put at the disposal of the general public. However, only this morning, I conceived a magnificent idea which prompted me to rush immediately to the Attica High School, where after having assembled the senior class of 1950, I told them of my discovery and of my wish to use them in the initial experiments. A long deliberation followed, after which the president, Bob Drake, came forth from the consultation room to announce that the class had voted in favor of accepting my proposition.

We are now gathered at my laboratory where each member of the class will take one of my pills after which he will immediately lapse into a deep coma which will transport him 20 years into the future in a matter of only seconds. We will then see how he will be living and what he will be doing at that time. For the benefit of humanity, I will gaze into my futuroscope and report the happenings of each member of the class. After 20 minutes, each person will return to 1950 from the world of the future with no ill effects experienced.

Each person has a pill and is now taking it.--------Everyone is closing his eyes. The year 1970 is before us.

The futuroscope is beginning to show an image. I believe it is--yes--it is Bob Drake, the class president. Bob, the State Highway Commissioner, has been boosting the paving of all gravel roads. He directs his interest to the vicinity of Attica. There is a change and I see that Keith Collier and his lovely wife Marilyn, the former Marilyn Kirby, are starring in the Broadway musical hit, "This Time for Keeps."

Another scene change to the Williamsport Hospital where Mrs. Jenner Sundt, known to you in her school days as Gloria Hopkins, has just been appointed Head of Maids.

Bill Miller, our up and coming lawyer at Newtown is fighting a hard fight against the young people's playing of pin-ball machines.

Mary Kurz has been awarded the merit of accomplishment by becoming the first shoe repair woman in Attica.

Gary Lane, a noted scholar, is touring the country and lecturing high school students on the value of studying.

I see here that Francis Larson, head of Harvard, has decreed that the Harvard football team should be made up of "A" students and that one-half the team should be girls. As you know, she has made the University Co-educational.

Doris Smith, the former Doris Livengood, is the first housewife to be appointed Secretary of State.

Romona Lilly, author of that famous book "You tell 'em, goldfish. You've been around the globe," has written another hit, "The Case of the Missing Garters", or--"The Last Time I Saw Paris".

Dan Bartell has startled the world with his amazing discovery of being able to control his breath so as to stay under water for 10 minutes. Yesterday, he proved it possible by demonstrating before a crowd of 10,000. His condition is improved and he may regain consciousness this week.

Well, I see that the futuroscope is going black which means that the 20 minutes have elapsed and all the class of 1950 will return to their own time interval. They are awakening now. None will remember anything of the past 20 minutes.

Let us hope that each member of the class may pursue and find his own particular path of accomplishment whatever it may be. I wish to report that the Futurity Pill is a complete success.
